### ABOUT ME

At 24 years old and currently pursuing a Master's degree (M2) in Information Systems Expertise, I am seeking a fixed-term or permanent position starting in September 2025. Passionate and self-taught, I stand out for my curiosity, team spirit, and ability to learn quickly. Determined to take on new technical challenges, I am ready to fully commit myself to your projects.

### SKILLS

- ReactJs - NextJs - VueJs - NuxtJs - CSS - TailwindCSS
- NodeJs - NestJs - Laravel - SQL - NoSQL - GraphQL - MongoDB - Architecture microservices
- Flutter - React Native - Swift
- Git - Docker - Kubernetes - AWS

### PROFESSIONAL EXPERIENCE

#### Co-Founder of Biume (Full-Stack Developer)

Since September 2024

- Development of a SaaS platform designed for professionals in the animal care sector, enabling them to easily manage their business: company management, client appointment scheduling, accounting, and much more, through a subscription-based model.
- For clients, the application allows them to create a profile, add their pets, book appointments, track their requests, and monitor their pets' progress.
- Architecture & Practices: Microservices, TDD, end-to-end and unit testing.
- Tech stack: Next.js (15) frontend, NestJS backend, TailwindCSS, DrizzleORM, Coolify, Neon.tech (PostgreSQL), Stripe, Trigger.dev.
- Website (beta test): <https://biume.com/>

#### Work-Study at Wedrivit (Full-Stack Developer)

Septembre 2023 - Septembre 2025

- Participation in the development of two vintage car rental platforms (Wedrivit and Retrobalade).
- Implemented front-end features using Next.js and TypeScript, integrated GraphQL APIs, set up testing (Jest, PHPUnit), and containerized applications with Docker. Contributed to the backend redesign with Laravel and to modernizing the architecture. Deployed on AWS, optimized performance, and improved user experience. Introduced TDD practices.
- Tech stack - Wedrivit: Next.js (TypeScript), Node.js, GraphQL, AWS, Amplify, Docker, Jest
- Tech stack - Retrobalade: Next.js (TypeScript), Laravel, Docker, PHPUnit

### EDUCATION

#### Master's Degree in Software Development and Information Systems

Bordeaux Ynov Campus

Septembre 2022 - septembre 2025

#### RNCP Level 7 French Certification: Software Development Expert

Septembre 2025

### KEY ACHIEVEMENTS

- Development of a complete SaaS platform for professionals in the animal care sector
- Active participation in the frontend and backend redesign of two vintage car rental platforms
- Implementation of a CI/CD environment and automated deployment processes
- Setup of a microservices architecture and adoption of TDD practices
- Performance optimization and modernization of the software architecture

### CERTIFICATIONS

RNCP Level 7 Certification: Software Development Expert (Reference: RNCP39583)
